WEATHER KEY POINTS

03/07/19 - 03/13/19

Thursday-Friday

- Minor river flooding will continue across portions of northern CA
- Localized heavy rain potential for flash flooding Thursday afternoon through Friday morning over the Kern County mountains. Otherwise lighter valley rain will continue across much of the state through the end of the week with no significant impacts. Isolated thunderstorms possible across the central valley locations today.
- Snow will continue over the Sierra creating travel impacts but impacts are much less than earlier this week. Snow amounts general 4-8 inches with localized amounts up to 12 inches.
- Gusty winds over portions of the southern CA mountains and desert areas will impact travel. Southwest to west winds 25 to 35 mph with gusts to 55 mph with isolated gusts to 65 mph.
- Colder air will move into the region, leading to lowering snow levels and cooler temperatures

Saturday-Sunday

- Another round of valley rain and mountain snow starting Saturday afternoon across much of the state
- Travel will be impacted over the mountains due to snow
- No significant rainfall impacts expected

Monday

- Much of the state will be in between storms and will see generally dry conditions

Tuesday-Wednesday

- Another round of valley rain and mountain snow across much of the state
- Travel will be impacted over the mountains due to snow
- No significant rainfall impacts expected at this time
- These storms will be on the colder side with lower snow levels
